

# PRODUCE YOUR OWN ELECTRICAL ENERGY

It's good for you, it's better for the planet!

✓ Easy to install

✓ Great payback

✓ Easy maintenance

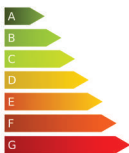

## NOW IS THE TIME TO SAVE YOUR MONEY!

Economy in the first month

Free of adjustments in the electricity tariff

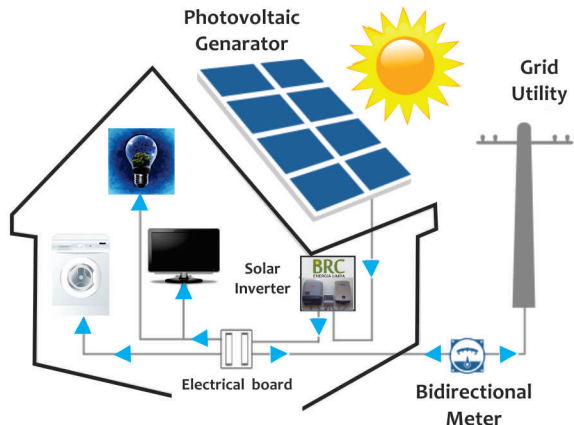

Property valuation

Solar power generated is consumed by day, at night the energy is supplied by the power utility. The quality of the electricity in your house does not suffer any changes..

Excess solar energy is injected into the network utility generating credits for use in the coming months or even off another property energy bill.
